

## Make-a-wheel activity

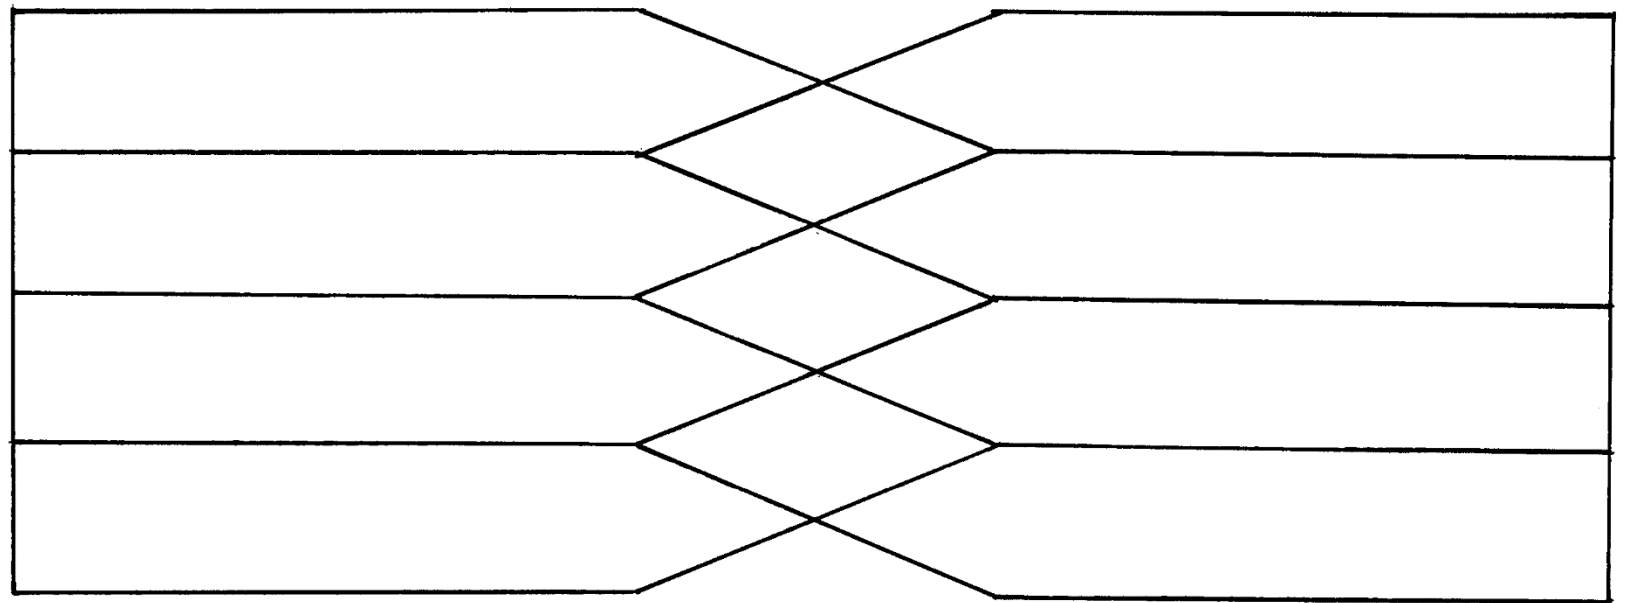

### You will need:

Scissors

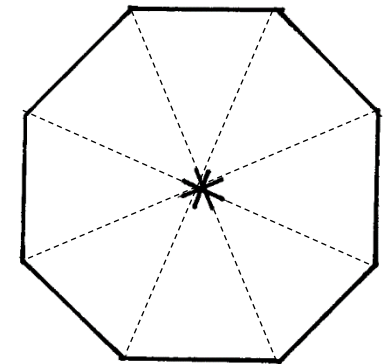

Pencil

Card (A4, cereal box or  
thin packaging card)

Glue stick

spokes

hub

### Instructions:

1. Cut out the paper pattern for the hub, spokes and felloe.
2. Trace around the pieces onto the card. You will need to turn over the felloe pattern to complete the circle.
3. Ask an adult to help you cut out the cardboard pieces.
4. Glue one side of the hub and stick on the pointed ends of the spokes. Press down to fix.
5. Put a dab of glue on the end of each spoke and stick on the felloe. Press down to fix.
6. Stick a pencil through the hub where the cardboard is marked with a star. Now you can spin your wheel on its axle!
